

Fourth P4R Virtual Networking Days 16-19 November 2021

16 November 2021 - Opening webinar

<p>15:00 – 16:30 (Berlin time, UTC+1)</p> <p>9:00 – 10:30 (New York time, UTC-5)</p> <p>21:00 – 22:30 (Bangkok time, UTC+7)</p> <p>Check here your local time</p>	<p>Moderation: Viridiana González (Ministry of Foreign Affairs Mexico) Oli Henman (Action for Sustainable Development)</p> <ul style="list-style-type: none">○ Welcoming of participants to the P4R Virtual Networking Days<ul style="list-style-type: none">- Ina von Frantzius, Federal Ministry for Economic Cooperation and Development, Germany- Mareike Well, Federal Ministry for the Environment, Nature Conservation and Nuclear Safety, Germany- Marion Barthélemy, Office of Intergovernmental Support and Coordination for Sustainable Development, UN Department of Economic and Social Affairs○ Panel discussion: Leaving no one behind – From paradigm to practice<ul style="list-style-type: none">- Pytrik Oosterhof, O-Land Consulting- Mohammed Ali Loutfy, Disabled People’s International/ Stakeholder Group of Persons with Disabilities- Darlene Haylock, Ministry of Sustainable Development, Climate Change and Disaster Risk Management, Belize <p>Key question: How can countries go back on track to fulfil the LNOB principle as they start to recover from the pandemic?</p> <p>Expected outcome: With the adoption of the 2030 Agenda countries promised to leave no one behind, but even before COVID-19 emerged, the paradigm of LNOB has been described in most VNR reports as crucial but difficult to implement. Now, the pandemic has not only exacerbated existing inequalities, but also it is having a devastating long-term impact on the world’s most disadvantaged groups. This opening session will reflect on LNOB led approaches in SDG implementation and reporting and discuss which actions need to be urgently taken in order to keep the promise up to 2030.</p>

17 November 2021

<p>10:00 – 11:30 (Berlin time, UTC+1)</p> <p>4:00 – 5:30 (New York time, UTC-5)</p> <p>16:00 – 17:30 (Bangkok time, UTC+7)</p> <p>Check here your local time</p>	<p>Reusing citizen-generated data to fill gaps in SDG reporting</p> <p>Moderation: Liliana Suchodolska (PARIS21)</p> <p>Inputs:</p> <ul style="list-style-type: none"> - Riyaza Fathimath, Maldives Bureau of Statistics - Ahmed Athif, Care Society Maldives - Rosemary Chepkoech, Kenya National Bureau of Statistics - Festus Odingo, SDGs Kenya Forum <p>Key questions: How can governments build trust with civil society actors to collaborate on reusing citizen-generated data to fill data gaps? What is the perspective of civil society organizations on this type of collaboration? What are the operational challenges of reusing citizen-generated data?</p> <p>Expected outcome: The reuse of citizen-generated data (CGD) can help fill some of the data gaps that still hamper comprehensive monitoring of and reporting on the 2030 Agenda. In Kenya and the Maldives, the National Statistical Offices have reached out to civil society organisations to explore how to collaborate to report on important development indicators. This session will present how governments build trust with non-state actors, map CGD sources and work alongside civil society actors to develop criteria to validate such data with the support of PARIS21. During the session participants will have the opportunity to learn and discuss the two countries' approaches and experiences and reflect about their applicability in other countries.</p>
<p>16:00 – 17:30 (Berlin time, UTC+1)</p> <p>10:00 – 11:30 (New York time, UTC-5)</p> <p>22:00 – 23:30 (Bangkok time, UTC+7)</p> <p>Check here your local time</p>	<p>Harnessing digital innovation: Using geospatial information to track SDG 11 in Colombia</p> <p>Moderation: Christian Merz (GIZ Data Lab)</p> <p>Inputs:</p> <ul style="list-style-type: none"> - Daniel Githira, UN Habitat - Karen Chavez, DANE Colombia - Erik Lehmann, GIZ Data Lab - Tatiana Menjura, National Planning Department, Colombia <p>Key questions: How can geospatial information be used to complement official statistics to fill SDG data gaps in VNR reporting and what do you have to take into consideration in doing so?</p> <p>Expected outcome: Participants of this webinar will learn about the benefits of geospatial information and what kind of challenges (e.g. quality of data) need to be tackled when using open source data. Finally, this country case will show how the results of such experiments can be integrated in the VNR and official data visualization.</p>

18 November 2021

<p>10:00 – 11:30 (Berlin time, UTC+1)</p> <p>4:00 – 5:30 (New York time, UTC-5)</p> <p>16:00 – 17:30 (Bangkok time, UTC+7)</p> <p>Check here your local time</p>	<p>The contribution of audits to achieving the SDGs</p> <p>Moderation: Anita Breuer (German Development Institute)</p> <p>Inputs:</p> <ul style="list-style-type: none"> - Archana Shirsat, INTOSAI Development Initiative - James Bennett-Rautenbach, IPA Consulting - Agung Firman Sampurna, Audit Board of the Republic of Indonesia (BPK) <p>Key questions: How can audits contribute effectively to achieving the SDGs? What is the role of other stakeholders in SDG auditing? How can SAIs help improve VNR processes?</p> <p>Expected outcome: Supreme Audit Institutions (SAIs) play an important role in the implementation of the 2030 Agenda by conducting SDG-related audits. With a view to strengthening the effectiveness of such audits, P4R has conducted a global study to assess how SAIs, parliaments, and civil society organisations have worked to ensure the uptake of SDG audit conclusions and recommendations. During this session participants will be able to discuss and reflect about the results of this study. Participants will also learn about the first audit of a VNR process in Indonesia.</p>
<p>15:00 – 16:30 (Berlin time, UTC+1)</p> <p>9:00 – 10:30 (New York time, UTC-5)</p> <p>21:00 – 22:30 (Bangkok time, UTC+7)</p> <p>Check here your local time</p>	<p>Evolution of local SDG reporting and supporting exchange mechanisms</p> <p>Moderation: Shipra Narang Suri (UN Habitat)</p> <p>Inputs:</p> <ul style="list-style-type: none"> - Karina Cázarez-Grageda, SDG Consultant - Allan MacLeod, Bristol City Office - Mariana Cammisa, City Government Buenos Aires/Argentina <p>Key questions: How have VLR processes evolved over time and how have lessons learned from previous processes been implemented? How can peer exchange and mutual learning support the strengthening of local SDG monitoring and reporting?</p> <p>Expected outcome: Especially since the signing of the Voluntary Local Review Declaration in 2019, in which by then more than 20 cities committed to create a VLR, the growing commitment at the local level is becoming more and more visible – the Declaration now has over 200 signatories worldwide. Participants in this session will hear about how VLR processes have evolved in the course of multiple reporting, what approaches have been successful, and what challenges remain, drawing two specific case studies (Bristol, Buenos Aires). In addition, global and regional approaches to knowledge sharing will be presented, following a discussion on how peer learning and exchange can contribute to strengthened local SDG monitoring and reporting.</p>

19 November 2021

<p>10:00 – 11:30 (Berlin time, UTC+1)</p> <p>4:00 – 5:30 (New York time, UTC-5)</p> <p>16:00 – 17:30 (Bangkok time, UTC+7)</p> <p>Check here your local time</p>	<p>Civil society reporting and assessment on SDG progress</p> <p>Moderation: Jörn Geißelmann (P4R)</p> <p>Inputs:</p> <ul style="list-style-type: none"> - Oli Henman, Action for Sustainable Development - Simekina Kaluzi, Council For Non Governmental Organisations, Malawi - Arjun Bhattarai, NGO Federation Nepal - Sara Brandt, Globalt Fokus Denmark <p>Key questions: How can civil society organise an inclusive national process when assessing SDG progress? In addition to this, how can civil society set up and ensure a trustful dialogue with governments and contribute to and/or complement with their assessments official reporting?</p> <p>Expected outcome: This session will provide a summary of trends in civil society reporting globally and show examples of different approaches used by civil society in some countries.</p>
<p>15:00 – 16:30 (Berlin time, UTC+1)</p> <p>9:00 – 10:30 (New York time, UTC-5)</p> <p>21:00 – 22:30 (Bangkok time, UTC+7)</p> <p>Check here your local time</p>	<p>Evolution of follow-up and review: Voices from the P4R network</p> <p>Moderation: Saionara König-Reis (Danish Institute for Human Rights)</p> <p>Inputs:</p> <ul style="list-style-type: none"> - Marianne Beisheim, German Institute for International and Security Affairs - Enid Chaverri, Ministry of Environment and Energy, Costa Rica - Viridiana González, Ministry of Foreign Affairs, Mexico - Sena Alouka, Young Volunteers for the Environment, Togo - Mustafa Khawaja, Palestinian Central Bureau of Statistics - Luis Flores, UN ECLAC <p>Closing remarks:</p> <ul style="list-style-type: none"> - Joop Theunissen, UN DESA - Thomas Wollnik, P4R <p>Key questions: How has the follow-up and review process of the 2030 Agenda evolved and what have countries learned about institutional coordination and alignment processes, meaningful multi-stakeholder engagement and statistical monitoring? What is still to be done to ensure evidence-based policy making for achieving the SDGs until 2030?</p> <p>Expected outcome: In this webinar P4R network members will review the progress made in SDG follow-up and review and share personal observations on the value added of partnerships, as well as the importance of trust and mutual learning.</p>
